AADITYA KUMAR

+919546872868 kumaraaditya324@gmail.com adityas-portfolio.onrender.com github.com/Aaditya-kumar-singh

Entry-level Web Developer (MERN) with hands-on experience in React and Next.js, along with Node.js, Express, and MongoDB. Experienced in building responsive, SEO-friendly web applications, integrating REST APIs, and implementing real-time features using WebSockets.

WORK EXPERIENCE

VenueMonk Pvt. Ltd. **06/2025 - 01/2026**

Frontend Intern - ReactJS, NodeJS, MongoDB, Express

- Developed and maintained the company's production website using React, ensuring responsive design, cross-browser compatibility, and consistent user experience.
- Migrated the legacy JavaScript codebase from ES5 to ES6+, improving code readability, performance optimization, and long-term maintainability.
- Integrated REST APIs to dynamically fetch and render data, enhancing application interactivity, scalability, and frontend–backend communication.
- Refactored existing React components using best practices and clean code principles, reducing redundant logic, improving performance, and following Git-based workflows.

PROJECTS

CNC Market – CNC Design Marketplace 07/2025 - 09/2025

Freelance Project: **cncmarket.in**

- Developed a full-stack CNC design marketplace for browsing, purchasing, and securely downloading digital CNC design files.
- Built a responsive and user-friendly frontend with modern web technologies.
- Integrated Razorpay for secure online payments and implemented protected access to purchased design files.
- Used Cloudinary for design previews and Cloudflare R2 for secure storage of original downloadable files.

SchemaFlow – Full Stack Web Application

Personal Project: **schemaflow.pages.dev**

- Built a component-driven frontend using React hooks and Next.js App Router.
- Designed responsive layouts using Tailwind CSS.
- Implemented reusable UI components and optimized rendering performance.
- Built a responsive, SEO-friendly frontend and developed dynamic schema parsing and visualization logic, then deployed the application on cloud hosting platforms ensuring high availability, scalability, and reliability.

SKILLS

Programming Languages: C+ + , JavaScript (ES6+) , SQL, TypeScript

Frontend: HTML5, CSS3, Tailwind CSS, React.js, Next.js, Vite

Backend: Node. js, Express. js, REST APIs, WebSockets

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Vercel

Core Concepts: Object- Oriented P rogramming (OOP) , Data Structures & Algorithms (DSA) , API Development

Soft Skills: Problem- Solving, Team Collaboration, Communication, Analytical Thinking

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering **Senior Secondary Education (Non-Medical)**

Punjab Technical University • GPA: 7.6 Amritsar • 06/2022 - 04/2026

P.T.J.M College• GPA: 67% Nalanda, Rajgir • 03/2020 - 05/2022
